TECH STACK

Backend

- Java (OOP, design patterns)
- Spring Boot · Spring MVC
- Hibernate/JPA · JDBC
- REST APIs · Node.js · Express
- Python

Frontend

- React · TypeScript · JavaScript
- HTML5 · CSS3 · Bootstrap · Vite

Databases

- MySQL · MongoDB · SQLite

Quality and delivery

- Git / GitHub · GitHub Actions
- JUnit · Maven · Vitest · Playwright
- Cloudflare · Render

CERTIFICATIONS

- Microsoft Azure Fundamentals: AZ-900, AI-900, DP-900 and SC-900

LANGUAGES

- Spanish (native)
- Catalan (good comprehension, basic speaking and writing)
- English (basic)

AWARDS

- 2nd place, Hackathon Tarragona 2025: AI solution with local models (Ollama) to speed up City Council procedures, in a team of 4.

EXPERIENCE

Freelance digital illustrator
Social-Gaming (Argentina), remote | Apr – Oct 2020
Emotes and digital posters for a gaming community, working directly with the client from brief to delivery.

PROFESSIONAL SUMMARY

Full stack developer trained in the Full Stack Web Development with Java programme (576 h). I build complete applications: Java backends with Spring Boot and SQL, Node.js APIs, React and TypeScript frontends, and Python whenever something needs automating. I test what I build and ship it with continuous integration. Available immediately, remote or on-site in Tarragona.

PROJECTS

LifeLevelUp · bootcamp final project, team
React · Node.js · Express · MongoDB · JWT · OAuth 2.0 · github.com/AldairBZ/LifeLevelUp

- Web app that turns healthy habits into a game, with achievements, a community and an AI assistant.
- REST API with JWT, validation, Helmet and rate limiting; Google, GitHub and Facebook login.
- Integration tests and CI on GitHub Actions; in production on Cloudflare, Render and MongoDB Atlas.

Interactive portfolio
React · TypeScript · Cloudflare Pages + D1 · Vitest · Playwright · scheneiderbz.pages.dev

- My projects run on the site: Java with CheerpJ, Python with Pyodide and COBOL on my own TypeScript interpreter.
- Cached serverless functions, my own cookieless analytics, three languages and 48 automated tests in CI.

TetrisGame
Java · Swing · MySQL · JDBC · JUnit · Maven · github.com/AldairBZ/TetrisGame
Desktop game with the logic separated from the UI and covered by tests, a DAO-based leaderboard and CI.

BlackJack in COBOL and Bon Gust manager
COBOL · Python · Tkinter · SQLite · github.com/AldairBZ
Game engine in COBOL with a Python UI, talking through files; and a bakery inventory manager in Python and SQLite.

EDUCATION

Full Stack Web Development with Java · 576 h
Fundación Esplai (Tarragona) | Feb 2025 – Aug 2025
Java and OOP, MySQL and MongoDB, Spring Boot, Hibernate/JPA, REST APIs, Maven, JUnit, React, TypeScript and Vite. Team final project defended before a panel.

Programació Java SE 11 – Programming II · 60 h
La Salle – Universitat Ramon Llull | Oct 2026
Functional programming, Streams, collections, generics and secure coding.

Network Protocols and Cybersecurity Technologies · 25 h
Universidad Nebrija | Jan 2025
